Designrr is a great way to design and publish eBooks and it has changed my life immensely! It has everything in one and makes creating eBooks very simple. I'm grateful I found this software to work with and have been recommending it to others for them to also create their eBooks.

Thanks Designrr!!

I am new to Designrr but so far I am loving the simplicity of use. I have written books before but this process has helped me work through an ebook a lot faster. I also love the ability to see the look and layout as I am working which is important for me.

I have not had the need to use customer service as yet so I cannot comment on that aspect. I have not referred to others as yet as I need to use the system more before being able to speak to all aspects of it.

### Designrr is just brilliant!

I have found myself with time on my hands and decided I wanted to write a book but had no real idea of how to get started. Finding Designrr has been a Godsend and a fascinating experience. It's been easy to navigate and now I'm getting to the end of my book I'm excited to see it. I'm also incorporating flip books into web sites, which is a complete bonus. Thanks guys, great work!

field medical writers move a little closer to breaking into the specialized field of continuing medical education. I'm a longtime Canva user but Designrr takes many of the design decisions off my plate, freeing me to focus on content. ### I purchased the standard in December...

I purchased the standard in December 2022 and upgraded to Pro for the year. I love how easy the software was to create my flipbook from my original PDF. I am just really starting to get into this but I did publish my first flipbook for my aromatherapy business and it was so simple and easy. Cannot wait to dig even deeper into the features.

### Wow, Designrr is a grand slam.

Wow. Incredibly easy to use with all the features you need to become an author. I highly recommend designrr to anyone suffering from writers block but know what they want to say. Just let the AI feature do it for you while you personalize it every step of the way.

### What made my experience great was the...online and one on one support.

What made my experience great was the support I got when I first started. I have a number of books and 5 (more to come) are on Designrr. I struggled at first. I am not tech savvy at all. What I created in a Word doc was basic to say the least. What the finished product in Designrr looked like was amazing and professional. My black and white world was transformed into color, perfect spacing, aligned bullet points and numbers. A million dollars of difference improvement. Now, back to the support. I struggled so much and

### After conducting extensive research

After conducting thorough research to find an online Ebook creator, I carefully narrowed down my options. I then proceeded to compare the shortlisted choices, conducting a SWOT analysis, and ultimately decided on Designrr.

I am writing this review after using Designrr, and I wanted to share that I made the right choice. In my opinion, it is the best Ebook creator available.

Highly recommended & double thumbs up

### I just started using designrr

I just started using designrr. I'm a boomer so I'm not tech savvy. Their support system is great, as are the tutorials. I'm excited to produce my first e-book, although yet I have not done so. I am in the process so I will report back with another review in the near future. In the meantime, I'm grateful for this new tool to add to my business.

I have been struggling with all the programs that are supposed to make writing and publishing easier. Not so much. This program was the easiest for me to follow. I'm not a tech person so I need something that is easy for me to understand. I just completed a book, I am happy to say, so Designrr worked for me.
