Disposable Plastic Syringes

NORM-JECT® inert syringes are latex free, contain no rubber, no silicone oil, styrene or DEHP and are DNA free. These syringes are the choice for any situation needing an inert, non-reactive syringe. They are more chemically resistant than rubber tipped syringes. Manufactured only from laboratory grade polypropylene and polyethylene. These unique plastic syringes have a positive safety stop to prevent accidental spills.

Small Syringe Kit

Model: P-SYRKIT-SM
Price: \$11.50 USD

- (2) 1 mL NormJect® Luer Slip Inert
- (2) 3 mL NormJect® Luer Lock Inert
- (2) 5 mL NormJect® Luer Lock Inert
- (2) 10 mL NormJect® Luer Lock Inert
- (6) Female Luer Barbs 0.125"ID
- (3) Male Luer Barbs 0.125"ID
- (20 ft.) PVC Tubing 0.125"ID x 0.188"OD

Dual Pump Plumbing Kit

Model: P-DKIT
Price: \$20.00 USD

For use with our advanced [Continuous/Dual Infusion Systems](#)

- (2) Dual Check valves
- (2) 50 mL NormJect® syringes
- (2) "Y" Connectors
- Withdraw pulls fluid from a reservoir
- Infusion out flows to a separate line
- Comes pre-assembled: Just attach the syringes
- Assembled with 0.125"ID PVC tubing: 6" connects the valves to the "Y" connectors, 5' to connect to your reservoir and out flow
- Parts can be purchased individually

Glass Syringes

Standard Glass Syringes

Gas Tight Glass Syringes

New Era Pump Systems, Inc. supplies a full range of glass syringes from 1 mL to 100 mL standard and 50 µL to 100 mL in gas tight syringes. Standard glass can handle between 22 to 43 psi and the gas tight can handle from 100 psi to upwards of 400 psi depending on the syringe.

Standard Glass Syringes

For Laboratory & Veterinary use only. Manufactured under ISO9001 standards in Germany from the finest Borosilicate Glass. Individually boxed. Pistons and barrels are interchangeable.

SCE PTFE Tipped Plunger Gas Tight Glass Syringes

A PTFE tip plunger minimizes carryover and prevents particulate matter from getting between the plunger and barrel by effectively wiping the barrel inner diameter during the plunger stroke. PTFE tipped plungers are suitable for both liquid and gas samples. Individually boxed. Pistons and barrels are interchangeable.

| Syringe Size | Fitting | PSI | Temperature | Model # | Price Each | Lead Time |

Stainless Steel Syringes & Parts

Stainless Steel Syringes

Fittings

O'Rings

Stainless Steel Syringes

These syringes are intended for high pressure applications with good resistance to most aggressive liquids. All syringe barrels and plungers are manufactured with #316 stainless steel. Syringes are fully autoclavable.

Syringes are guaranteed to be leak free to pressures in excess of 750 psi.

8 mL syringes are guaranteed to be leak free to pressures in excess of 1500 psi.

3 Viton® O'Rings are included in each syringe. 2 on the plunger, 1 on the tip. Replacement O'Ring sets in Viton® or Chemraz® materials are available.

Note: Stainless Steel syringes and parts are custom orders. Orders are non-cancelable and non-returnable.

Replacement O'Rings for Stainless Steel Syringes

O'Rings insure against leakage. Syringes are guaranteed to be leak free to pressures in excess of 700 PSI. Stainless Steel Syringes come standard with Viton® O'Rings. Chemraz® O'Rings are ordered separately and are for applications requiring higher chemical resistance. Each syringe uses 3 O'Rings, which are included in each set.

Plumbing Supplies

Plumbing Supplies

Peristaltic Pump Tubing

Plumbing Supplies

- **Dual Check Valve** has a fixed male luer lock outlet port, female luer lock inlet port and female luer lock control port. 3 psi cracking pressure. Made with polycarbonate and silicone.
- **Female and Male Luer Barbs** Made from nylon. Fits 1/8" ID tubing.
- **"Y" Connector Slip** Made from white nylon. Fits 1/8" ID tubing (3.2 mm).
- **PVC Tubing** is a special non-toxic formulation of the highest quality polyvinyl chloride and special plasticizers without extenders or fillers. Clear water-transparency and absolute flexibility with dimensional stability. Ideal for many applications in the laboratory, chemical and industrial plants.
- **Silicone Tubing** is peroxide cured.
- **PTFE Tubing** is a smooth, non-porous and dimensionally stable tubing.
- **Dual Pump Plumbing Kit** is for use with our [continuous infusion system](#) or [dual infusion system](#). The kit comes pre-assembled, just attach the syringes.

| Tubing: 0.125"ID x 0.250"OD, PTFE | Q-TPTFE125 | 10 ft. | \$50.00 |

Peristaltic Pump Supplies

Peristaltic Pump Tubing

Formulated to withstand the high temperatures frequently occurring during food and beverage processing, **Food Grade Tubing** will outlast and outperform virtually all other food grade tubing. **Industrial Grade Tubing** outlasts and outperforms other specialty rubber tubing. It will not weaken or crack after years of exposure to heat and ozone. **Chemical Resistant Tubing** provides the most flexibility, highest temperature resistance and longest pump life available in a clear, plasticizer/oil free tubing. **Ultra Chemical Resistant Tubing** is virtually unaffected by acids, bases, ketones, salts and alcohols fitting the requirements of many applications from battery acid filling to hazardous material handling.

Peristaltic Pump Head Kits

The **PERI-HEAD-KIT-YG4** is a 4 roller 1/16"ID tubing kit for low volume, higher precision dispensing. Maximum dispense rate is 75 mL/min. This kit includes green 4 roller head, 4 ft. of tubing, 1-3/4" nylon clamp ties, reduction couplers, and a vial of lubricant.

The **PERI-HEAD-KIT-YB2** is a 2 roller 3/16"ID tubing kit. Maximum dispense rate is 775 mL/min. This kit includes blue 2 roller head, 4 ft. of tubing, 1-3/4" nylon clamp ties and a vial of lubricant.

The **PERI-HEAD-KIT-HGC2** is a 2 roller 1/4"ID tubing kit. Maximum dispense rate is 1000 mL/min. This kit includes clear 2 roller head, 4 ft. of tubing, 1-3/4" nylon clamp ties and a vial of lubricant.

Please note: The actual dispensing values depend on the following:

- Line Pressure
- Liquid Viscosity
- Pumping Speed
- Calibration function improves accuracy.
