

About Nutech Instruments

Headquartered in Texas, Nutech Instruments is the technology leader in Volatile Organic Compounds (VOCs) testing, monitoring and analysis. We are one of the recommended vendors in the newly release US EPA TO-15A. We are also the instruments provider for the collaborative experiment of China EPA method HJ 759-2015. For decades, Nutech has been focusing on VOCs sample collection, pretreatment/preparation, online monitoring and related technologies. We are one of the very few companies who fully master the technology of 3-stage cryogenic traps preconcentration system around the world.

We have 4 major product lines:

- Air lab sample prep products, including the classical suite of autosampler, -
- preconcentrator, canister cleaning system and static dilutor.
- Air/gas sampling products Portable NMHC (Non-methane Hydrocarbons) analyzer
- VOCs on-line analysis products

For years Nutech has extended its business network to many countries worldwide. Our clients include governmental environment monitoring agencies, 3rd party testing bodies, industrial enterprises, universities and research institutes. Nutech is the sole supplier of preconcentration system of Linde and the long-term supplier of NIST (National Institute of Standards and Technology). We are the testing device supplier of US EPA TO-15, TO-12A. We also serve customers like Washington River Protection Solutions (WRPS), Restek, Harvard, Environment Canada, Taiwan EPA, HK Government Lab, BP and so on.

Nutech will continue to providing our global customers with the most outstanding products and solutions in the field of VOCs testing, monitoring and analysis.
