

## Parts for ASE® Systems

- Choose stainless steel or Siltek® deactivation for improved inertness.
- Caps include frit, PEEK™ seal, and PTFE O-ring.

### please note

Resprep™ designed parts are not interchangeable with Dionex designed parts.

### Replacement Parts for ASE® 200 Systems, Restek Enhanced Design

#### Resprep™ Extraction Cell Parts for ASE® 200 Systems, Restek Enhanced Design

- Simpler design with fewer parts.
- Faster installation.
- Easier cleaning.
- More cost effective than original equipment design.

To simplify replacing the frit and PEEK™ washer in the ASE® 200 extraction cell cap, we developed an enhanced cell design that eliminates the snap ring. The frit presses snugly into a groove in a PEEK™ washer design that fits into a recessed cavity in the enhanced extraction cell.

These Restek replacement parts will keep your extraction system running smoothly. All parts are economically priced to save you money and are designed to meet or exceed the performance of the original manufacturer's parts.
