

What's new at Value Plastics?

Value Plastics is on the move! This last year has found Value Plastics innovating and growing at a great pace! In this section you can find quick references to our new tubing components and most notable business additions!

SBL Series Quick Connect Fittings

Value Plastics introduces a new concept in quick connect fittings for fluid management applications. The SBL Series connector system is so intuitive that users just automatically know how to operate it the minute they pick it up. SBL Series quick connect fittings are cost effective and designed to meet your needs for a reusable component for small-bore applications in all fluid delivery areas. Find these fittings beginning on page 9.

SCV Series Single Check Valves

SCV Series products are available in anti-siphon or one-way check valve configurations in a variety of materials and end fittings. The valves feature low priming volume, ease of removing air bubbles during priming and operate in any spatial orientation. These fittings can be found starting on page 12.

XQC Series Quick Connect Fittings

XQC Series quick connect fittings (quick disconnect couplings) add convenience to your repetitive connect — disconnect requirements. These 20 products, available in acetal and polypropylene, may be found beginning on page 10.

DCV Series Double Check Valves

DCV Series double check valves are now available. These products are designed to enable clean transfer of a fluid from a storage container to a point of use. The 7 SKUs are manufactured from materials that comply with USP Class VI and are gamma stable. These products may be found beginning on page 14.

SF Series Sanitary Fittings

SF Series sanitary fittings (sanitary couplers) mate Value Plastics' 600 Series barb to a sanitary end flange. Two flange sizes, "Mini" (3/4") and "Maxi" (1-1/2") join 5 different tube IDs and are available in both animal-free polypropylene and Kynar® PVDF resins. Find these 20 products beginning on page 16.

Value Plastics Design Center

Find examples in this section of currently-available made-to-order specialized solutions beginning on page 36.

Build-a-Part™ Bondable Components

The Bondable components found on pp. 68-71 are now known as Build-a-Part components. Overcome the limits of injection molding tooling design and build the exact component you desire, in the exact layout that works best for you!

Formation of Asian Subsidiary

As of January 18, 2008, Value Plastics announces the establishment of Value Plastics (Asia Pacific) Co., Ltd. This company will be the focus of Value Plastics' increasing efforts to develop the rapidly-growing markets for its products in Asia.
